| Organization and current number of SDCS signs                                 |    |
| References .....  | 12 |
| Key to Sources and Measurement Units/Abbreviations .....                      | 13 |
| Reference Data: Segmental   |    |
| I. Vowels/Diphthongs  |    |
| A. Competence   |    |
| 1a. Percentage of Non-Rhotic Vowels/Diphthongs Correct: Tabular .....         | 14 |
| 1b. Percentage of Non-Rhotic Vowels/Diphthongs Correct: Graphic .....         | 15 |
| 2a. Percentage of Rhotic Vowels/Diphthongs Correct: Tabular .....             | 16 |
| 2b. Percentage of Rhotic Vowels/Diphthongs Correct: Graphic .....             | 17 |
| 3a. Percentage of Phonemic Diphthongs Correct: Tabular .....                  | 18 |
| 3b. Percentage of Phonemic Diphthongs Correct: Graphic .....                  | 19 |
| 4a. Percentage of Vowels/Diphthongs Correct: Tabular .....                    | 20 |
| 4b. Percentage of Vowels/Diphthongs Correct (AT): Graphic .....               | 21 |
| 4c. Percentage of Vowels/Diphthongs Correct (CSS): Graphic .....              | 22 |
| 5a. Percentage of Non-Rhotic Vowels/Diphthongs Correct-Revised: Tabular ..... | 23 |
| 5b. Percentage of Non-Rhotic Vowels/Diphthongs Correct-Revised: Graphic ..... | 24 |
| 6a. Percentage of Rhotic Vowels/Diphthongs Correct-Revised: Tabular .....     | 25 |
| 6b. Percentage of Rhotic Vowels/Diphthongs Correct-Revised: Graphic .....     | 26 |
| 7a. Percentage of Phonemic Diphthongs Correct-Revised: Tabular .....          | 27 |
| 7b. Percentage of Phonemic Diphthongs Correct-Revised: Graphic .....          | 28 |
| 8a. Percentage of Vowels/Diphthongs Correct-Revised: Tabular .....            | 29 |
| 8b. Percentage of Vowels/Diphthongs Correct-Revised (AT): Graphic .....       | 30 |
| 8c. Percentage of Vowels/Diphthongs Correct-Revised (CSS): Graphic .....      | 31 |
| 9a. Percentage of Relative Non-Rhotic Vowel/Diphthongs Distort: Tabular ..... | 32 |
| 9b. Percentage of Relative Non-Rhotic Vowel/Diphthongs Distort: Graphic ..... | 33 |
| B. Precision  |    |
| 1. Reduced Vowel Space: Quadrilateral VSQI .....                              | 34 |
| 2. Reduced Vowel Space: Quadrilateral VSQIL .....                             | 35 |
| 3. Reduced Vowel Space: Distance from Center VSD .....                        | 36 |
| 4. Reduced Vowel Space: Distance from Center VSDL .....                       | 37 |
| 5. Reduced Vowel Space: /i, æ, ə/ Distance from Center VSD3 .....             | 38 |
| 6. Reduced Vowel Space: /i, æ, ə/ Distance from Center VSD3L .....            | 39 |

|  |    |
|--|----|
| 7. Lengthened Vowels: Corners.....                                     | 40 |
| 8. Lengthened Vowels: Non-Rhotic Mids .....                            | 41 |
| 9. Lengthened Vowels: Phonemic Diphthongs.....                         | 42 |
| 10. Reduced Vowel Substitution Coefficients .....                      | 43 |
| 11. Increased Distorted Vowel Substitutions.....                       | 44 |
| 12. Less Precise Diphthongs (5 points).....                            | 45 |
| 13. Less Precise Diphthongs (3 points).....                            | 46 |
| 14. Distorted Rhotics: F3-F2.....                                      | 47 |
| 15. Distorted Rhotics: F3/F2.....                                      | 48 |
| 16. Reduced Pairwise Vowel Duration Variability.....                   | 49 |
| <br>C. Stability   |    |
| 1. Less Stable Vowel Space: Quadrilateral VSQI .....                   | 50 |
| 2. Less Stable Vowel Space: Quadrilateral VSQIL .....                  | 51 |
| 3. Less Stable Vowel Space: Distance from Center VSD .....             | 52 |
| 4. Less Stable Vowel Space: Distance from Center VSDL .....            | 53 |
| 5. Less Stable Vowel Space: /i, æ, ɑ/ Distance from Center VSD3 .....  | 54 |
| 6. Less Stable Vowel Space: /i, æ, ɑ/ Distance from Center VSD3L ..... | 55 |
| 7. Less Stable F1: /i/.....  | 56 |
| 8. Less Stable F1: /æ/.....  | 57 |
| 9. Less Stable F1: /u/ .....   | 58 |
| 10. Less Stable F1: /ɑ/ .....  | 59 |
| 11. Less Stable F2: /i/ .....  | 60 |
| 12. Less Stable F2: /æ/ .....  | 61 |
| 13. Less Stable F2: /u/ .....  | 62 |
| 14. Less Stable F2: /ɑ/ .....  | 63 |
| 15. Less Stable Vowel Duration: Corners.....                           | 64 |
| 16. Less Stable Vowel Duration: Non-Rhotic Mids .....                  | 65 |
| 17. Less Stable Vowel Duration: Phonemic Diphthongs.....               | 66 |
| 18. Less Stable Rhotic Distortions: F3-F2 .....                        | 67 |
| 19. Less Stable Rhotic Distortions: F3/F2 .....                        | 68 |
| 20. Less Stable Vowel Errors: Targets .....                            | 69 |
| 21. Less Stable Vowel Errors: Types.....                               | 70 |

## II. Consonants

|   |    |
|---|----|
| A. Competence   |    |
| 1a. Percentage of Consonants in Inventory: Tabular .....          | 71 |
| 1b. Percentage of Consonants in Inventory: Graphic .....          | 72 |
| 2a. Percentage of Consonants Correct: Tabular.....                | 73 |
| 2b. Percentage of Consonants Correct (AT): Graphic .....          | 74 |
| 2c. Percentage of Consonants Correct (CSS): Graphic .....         | 75 |
| 3a. Percentage of Consonants Correct-Revised: Tabular .....       | 76 |
| 3b. Percentage of Consonants Correct-Revised (AT): Graphic .....  | 77 |
| 3c. Percentage of Consonants Correct-Revised (CSS): Graphic ..... | 78 |

|  |     |
|--|-----|
| 4a. SRT Total Percentage Consonants Correct-Revised: Tabular .....             | 79  |
| 4b. SRT Total Percentage Consonants Correct-Revised: Graphic .....             | 80  |
| 5a. Percentage Consonants Correct in Complex Words: Tabular.....               | 81  |
| 5b. Percentage Consonants Correct in Complex Words: Graphic .....              | 82  |
| 6a. Relative Omission Index: Tabular .....                                     | 83  |
| 6b. Relative Omission Index: Graphic .....                                     | 84  |
| 7a. Relative Substitution Index: Tabular .....                                 | 85  |
| 7b. Relative Substitution Index: Graphic .....                                 | 86  |
| 8a. Relative Distortion Index: Tabular.....                                    | 87  |
| 8b. Relative Distortion Index: Graphic .....                                   | 88  |
| <b>B. Precision</b>  |     |
| 1. Nasal Emissions .....   | 89  |
| 2. Reduced Percentage of Glides Correct .....                                  | 90  |
| 3. Increased Percentage of /j/ Deletions in Clusters .....                     | 91  |
| 4. Lowered Sibilant Centroids: M1 at Midpoint.....                             | 92  |
| 5. Lowered Sibilant Centroids: Maximum M1 .....                                | 93  |
| 6. Lengthened Cluster Durations: Relative Duration of Cluster.....             | 94  |
| 7. Lengthened Cluster Durations: Relative Duration of First Consonant.....     | 95  |
| 8. Lengthened Cluster Durations: Relative Duration of Second Consonant .....   | 96  |
| 9. Lengthened Cluster Durations: Percentage of S-F/F-S CI Disruptions .....    | 97  |
| 10. Lengthened Cluster Durations: Relative Duration of S-F/F-S CI Disruptions  | 98  |
| 11. Lengthened Cluster Durations: Relative Duration of Pause Disruptions ..... | 99  |
| 12. Lengthened Cluster Durations: Relative Duration of Addition Disruptions .  | 100 |
| 13. SRT Transcoding .....  | 101 |
| <b>C. Stability</b>  |     |
| 1. Less Stable Consonant Errors: Targets .....                                 | 102 |
| 2. Less Stable Consonant Errors: Error Types.....                              | 103 |
| 3. Less Stable Sibilant Centroids: M1 at Midpoint.....                         | 104 |
| 4. Less Stable Sibilant Centroids: Maximum M1 .....                            | 105 |

### III. Vowels/Diphthongs & Consonants

|  |     |
|--|-----|
| <b>A. Competence</b>   |     |
| 1a. Intelligibility Index: Tabular .....                       | 106 |
| 1b. Intelligibility Index: Graphic .....                       | 107 |
| 2a. Percentage of Structurally Correct Words: Tabular.....     | 108 |
| 2b. Percentage of Structurally Correct Words: Graphic .....    | 109 |
| <b>B. Precision</b>  |     |
| 1. Increased Percentage of Phoneme Distortions: Place .....    | 110 |
| 2. Increased Percentage of Phoneme Distortions: Additions..... | 112 |
| 3. Increased Percentage of Phoneme Distortions: Duration ..... | 114 |
| 4. Increased Percentage of Phoneme Distortions: Force .....    | 116 |
| 5. Increased Percent of EMMA errors by type .....              | 118 |

|  |     |
|--|-----|
| <b>C. Stability</b>  |     |
| 1. Less Stable Whole Word Errors: Targets .....                      | 119 |
| 2. Less Stable Whole Word Errors: Error Types .....                  | 120 |
| 3. Less Stable Percentage of Phonemes Correct in Complex Words ..... | 121 |
| 4. Increased Percent of EMMA errors by token .....                   | 122 |

## Reference Data: Suprasegmental

### IV. Phrasing

|  |     |
|--|-----|
| <b>A. Competence</b>   |     |
| 1a. Percentage of Appropriate Phrasing: Tabular .....                          | 123 |
| 1b. Percentage of Appropriate Phrasing: Graphic .....                          | 124 |
| <b>B. Precision</b>  |     |
| 1. Increased Repetitions and Revisions: 2-4 Word Utterances.....               | 125 |
| 2. Increased Repetitions and Revisions: 5-7 Word Utterances.....               | 126 |
| 3. Increased Repetitions and Revisions: 8+ Word Utterances.....                | 127 |
| 4. Increased Repetitions and Revisions: All Utterances .....                   | 128 |
| 5. Increased Syll/Word Segregation: Percentage of Btwn/Within-Wd Pauses....    | 129 |
| 6. Increased Syll/Word Segregation: Duration of Btwn/Within-Wd Pauses.....     | 130 |
| 7. Increased Percentage of Inappropriate Pauses .....                          | 131 |
| 8. Increased Percentage of Pauses .....  | 132 |
| 9. Reduced Speech-Pause Duration Variability Ratio: 2-4 Word Utterances .....  | 133 |
| 10. Reduced Speech-Pause Duration Variability Ratio: 5-7 Word Utterances ..... | 134 |
| 11. Reduced Speech-Pause Duration Variability Ratio: 8+ Word Utterances.....   | 135 |
| 12. Reduced Speech-Pause Duration Variability Ratio: All Utterances.....       | 136 |

### V. Rate

|  |     |
|--|-----|
| <b>A. Competence</b>                                   |     |
| 1a. Percentage of Appropriate Rate: Tabular.....       | 137 |
| 1b. Percentage of Appropriate Rate: Graphic .....      | 138 |
| <b>B. Precision</b>                                    |     |
| 1. Slower Speaking Rate: 2-4 Word Utterances .....     | 139 |
| 2. Slower Speaking Rate: 5-7 Word Utterances .....     | 140 |
| 3. Slower Speaking Rate: 8+ Word Utterances .....      | 141 |
| 4. Slower Speaking Rate: All Utterances.....           | 142 |
| 5. Slower Articulation Rate: 2-4 Word Utterances ..... | 143 |
| 6. Slower Articulation Rate: 5-7 Word Utterances ..... | 144 |
| 7. Slower Articulation Rate: 8+ Word Utterances .....  | 145 |
| 8. Slower Articulation Rate: All Utterances .....      | 146 |

|  |     |
|--|-----|
| <b>C. Stability</b>  |     |
| 1. Less Stable Speaking Rate: 2-4 Word Utterances .....                    | 147 |
| 2. Less Stable Speaking Rate: 5-7 Word Utterances .....                    | 148 |
| 3. Less Stable Speaking Rate: 8+ Word Utterances .....                     | 149 |
| 4. Less Stable Speaking Rate: All Utterances.....                          | 150 |
| 5. Less Stable Articulation Rate: 2-4 Word Utterances.....                 | 151 |
| 6. Less Stable Articulation Rate: 5-7 Word Utterances.....                 | 152 |
| 7. Less Stable Articulation Rate: 8+ Word Utterances .....                 | 153 |
| 8. Less Stable Articulation Rate: All Utterances .....                     | 154 |
| VI. Stress   |     |
| <b>A. Competence</b>   |     |
| 1a. Percentage of Appropriate Stress: Tabular .....                        | 155 |
| 1b. Percentage of Appropriate Stress: Graphic.....                         | 156 |
| <b>B. Precision</b>  |     |
| 1. Lexical Stress: Trochees .....  | 157 |
| 2. Lexical Stress: All.....  | 158 |
| 3. Emphatic Stress.....  | 159 |
| 4. Sentential Stress .....   | 160 |
| <b>C. Stability</b>  |     |
| 1. Less Stable Lexical Stress: Trochees.....                               | 161 |
| 2. Less Stable Lexical Stress: All .....                                   | 162 |
| 3. Less Stable Emphatic Stress .....                                       | 163 |
| 4. Less Stable Sentential Stress.....                                      | 164 |
| VII. Loudness  |     |
| <b>A. Competence</b>   |     |
| 1a. Percentage of Appropriate Loudness: Tabular.....                       | 165 |
| 1b. Percentage of Appropriate Loudness: Graphic .....                      | 166 |
| <b>B. Precision</b>  |     |
| 1. Vowels-Consonants Intensity Ratios: Vowels-Stops.....                   | 167 |
| 2. Vowels-Consonants Intensity Ratios: Vowels-Affric/Fricatives.....       | 168 |
| 3. Vowels-Consonants Intensity Ratios: All.....                            | 169 |
| <b>C. Stability</b>  |     |
| 1. Less Stable Vowels-Consonants Intensity Ratios: Vowels-Stops .....      | 170 |
| 2. Less Stable Vowels-Consonants Intensity Ratios: Vowels-Affric/Fric..... | 171 |
| 3. Less Stable Vowels-Consonants Intensity Ratios: All.....                | 172 |

## VIII. Pitch

|  |     |
|--|-----|
| A. Competence  |     |
| 1a. Percentage of Appropriate Pitch: Tabular.....        | 173 |
| 1b. Percentage of Appropriate Pitch: Graphic .....       | 174 |
| B. Precision   |     |
| 1. Midpoint Fundamental Frequency Mean.....              | 175 |
| 2. Midpoint Fundamental Frequency Range.....             | 176 |
| C. Stability   |     |
| 1. Less Stable Mean Midpoint Fundamental Frequency ..... | 177 |

## IX. Laryngeal Quality

|  |     |
|--|-----|
| A. Competence  |     |
| 1a. Percentage of Appropriate Laryngeal Quality: Tabular.....  | 178 |
| 1b. Percentage of Appropriate Laryngeal Quality: Graphic ..... | 179 |
| B. Precision   |     |
| 1. Percentage of Breathy Utterances .....                      | 180 |
| 2. Percentage of Rough Utterances.....                         | 181 |
| 3. Percentage of Strained Utterances .....                     | 182 |
| 4. Percentage of Break/Shift/Tremulous Utterances.....         | 183 |

## X. Resonance

|  |     |
|--|-----|
| A. Competence  |     |
| 1a. Percentage of Appropriate Resonance Quality: Tabular.....  | 184 |
| 1b. Percentage of Appropriate Resonance Quality: Graphic ..... | 185 |
| B. Precision   |     |
| 1. Percentage of Nasal Utterances .....                        | 186 |
| 2. Lowered /ɑ/ F1 (Nasal).....                                 | 187 |
| 3. Percentage of Nasopharyngeal Utterances.....                | 188 |
| 4. Lowered /i/ F2 (Nasopharyngeal) .....                       | 189 |
| 5. Lowered /u/ F2 (Nasopharyngeal).....                        | 190 |
| C. Stability   |     |
| 1. Less Stable /ɑ/ F1 (Nasal).....                             | 191 |
| 2. Less Stable /i/ F2 (Nasopharyngeal) .....                   | 192 |
| 3. Less Stable /u/ F2 (Nasopharyngeal).....                    | 193 |

## **Background**

Phonology Project Technical Reports provide technical and substantive information on methods developed for a program of research in speech sound disorders of known and unknown origins. Primary goals of the Phonology Project are to identify etiologic origins, risk and protective factors, and diagnostic markers for eight subtypes of speech sound disorders of currently unknown origin (Shriberg, 2010).

The diagnostic instrument used in all Phonology Project studies is termed the Speech Disorders Classification System (SDCS: Shriberg et al., 2010a). The SDCS includes a typologic nosology for research and practice in speech sound disorders, and an etiologic nosology for the eight putative subtypes of speech sound disorders of currently unknown origin. The assessment protocol used in all studies since approximately 2010 is termed the Madison Speech Assessment Protocol (MSAP). The MSAP Data reduction methods include both perceptual and acoustic methods. Perceptual methods for narrow phonetic transcription of speech are based on extensions to the system described in *Clinical Phonetics* (Shriberg & Kent, 2012). Perceptual methods to code speakers' prosody and voice are based on extensions to the system described in *The Prosody-Voice Screening Profile* (PVSP: Shriberg, Kwiatkowski, & Rasmussen, 1990), Phonology Project Technical Report No. 1 (Shriberg, Kwiatkowski, Rasmussen, Lof, & Miller, 1992), and the Phonology Project Laboratory Manual (PPLM; unpublished). Acoustic methods and reliability findings for speech, prosody, and voice variables are described in Shriberg et al. (2010a; 2010b) and in the PPLM. Shriberg et al. (2010a) provides extensive information on the structure and content of the MSAP relevant for the present report and is not summarized in this report.

The goal of this technical report is to provide reference data for the 145 speech, prosody, and voice signs organized by the Ten Linguistic Domains Analytics (TLDA) shown in the table in the following section. Shriberg et al. (2010) provides a complete description of the rationale and content of the TLDA framework.

## **Method**

### **Participants**

To recruit qualified participants for the reference database the examiner (author ASC) sent emails describing the research study to adult groups and disseminated flyers at community centers and workplaces in the Iowa City, IA area. The recruitment material included a brief description of the purpose of the study, the age range required of potential participants, time required to complete the protocol, compensation for participation (\$30), and examiner contact information.

To determine if they qualified to participate in the study, respondents were asked the following six screening questions in a phone call (answers in brackets were required for participation):

1. Is your first language English? ['yes']
2. Have you ever been diagnosed with a language and/or learning disability? ['no']
3. Have you ever been diagnosed with a psychiatric and/or neurological condition? ['no']
4. Do you have any oral structure and/or dental anomalies and/or body piercings that interfere with your speech? [no]
5. Do you have a history of uncorrected visual problems? ['no']
6. Do you have a history of uncorrected hearing problems and/or hearing loss? ['no']

If a potential participant had any questions about the study, the examiner answered his/her question(s). The 50 participants selected and scheduled for assessment included four females and

four males from the following age group decades: 20-29, 30-39, 40-49, 50-59, 60-69, and five females and five males from ages 70-80 years. Due to technical difficulties with the recording equipment, 14 participants were either retested on a portion or all of the protocol or they were replaced with new participants.

## **Assessment**

All participants signed an informed consent form, which was approved by the University of Wisconsin-Madison and University of Iowa institutional review boards. Participants were tested individually in a quiet room in a university speech clinic. A subset of tasks and tests in the Madison Speech Assessment Protocol (MSAP: Shriberg et al., 2010a) was administered to all participants. The MSAP includes a hearing screening at 20 dB HL for 500, 1000, 2000, and 4000 Hz, the *Goldman Fristoe Test of Articulation-2* (Goldman & Fristoe, 2000), and 15 speech tasks. Responses to the subset of speech tasks completed were recorded on a Marantz CDR420 HD/CD digital audio recorder with matching external Shure MX412DC cardioid condenser microphone. The audio samples were processed in Madison using the procedures described in the reference citations.

The reference data in this report are presented without comment. Thorough analyses of trends within and between the variables of age, sex, and speech signs are beyond the scope of the present goal. Obvious constraints on these reference data are the lack of sociodemographic diversity and the possibility of sampling errors due to small cell sizes. Readers interested in the reference data obtained using acoustic methods are welcome to contact the authors for additional technical information and access to the wave files.

Organization and current number of speech, prosody, and voice signs in the Speech Disorders Classification System (SDCS). Shriberg et al. (2010a) provides a complete description of the rationale and content of the Ten Linguistic Domains Analytics (TLDA) and the Competence, Precision, Stability Analytics (CPSA).<sup>a</sup>
